WHIRLSPRAY SHOWER TECHNOLOGY

At the touch of a button, the gently cleansing and water-saving WhirlSpray shower technology cleans with a gently pulsing spray of aerated water, leaving you with a feeling of complete freshness.

RIMFREE® TOILET BOWL

With the Rimfree® ceramic pan design, the AquaClean Tuma offers modern standards for hygiene and easy care. Unlike traditional rims which create a hiding place for germs, the seamless transitions of the Rimfree® design gives bacteria nowhere to hide. The flush technology with flush guide ensures complete, dynamic flushing out, even with a partial flush.

AQUACLEAN TUMA ENHANCEMENT SOLUTION

The AquaClean Tuma Classic and Comfort models are available as a complete solution with matching ceramic pan and neatly concealed electrical and water connections. With each model, an enhancement solution is also available which carries the same advanced features as the full version. This can be conveniently retro-fitted to a variety of existing toilets.

The enhancement solution can be easily fitted without the need for extensive conversion works, making it the perfect solution for rented properties. Users benefit from the flexibility to refresh existing arrangements and the freedom to enjoy superior hygiene and well-being.

Michael Leigh, from Blackpool

"When you use it, there is nothing else like it – you feel clean and fresh, and using water to clean feels so much nicer on your skin than toilet paper."

John Flint, from Stockport

"We'd never really considered having a shower toilet before, but now we've had it for a few months, it's wonderful and we've had no problem at all! Should we ever choose to move house in the future, we will take the AquaClean with us!"
